

JOHN DEGRAFFENRIED *For Congress*

The Needs of the People Come Before the Will of the Government

I am John DeGraffenried and I am running for the US House of Representatives for Colorado District 6 in 2012

I believe it is time for America to change. For all too long, the people of America - the very people that make this nation great - have been trod upon by the very government designed to protect them. That is not what this country was founded on. We need real change, not just promises of change. We need to work together as a team, to reunite this country and make it strong once again.

In addition, I want Americans to understand that I am unaffiliated and independent, because I refuse to be part of the Partisan bickering, It is time to stop arguing about what the Party wants and concentrate on fixing the problems. I am also running with no sponsors or budget, because I want to make a point to everyone out there; the common person, not wealthy, not politically supported, still has a say in how the country is run, and their opinions are still valid and still important

The 99% matter. I am running for those people, the people who are frustrated with America and how everything is going, but feel that their voice is not being heard.

I encourage all voters to read about my platform and beliefs to make an informed vote in our the upcoming 2012 election. I also encourage people to tell me what they think. I am here to listen, and every voice is valuable.

What I believe ~

I believe all people are equal and should be treated as such.

I believe that every voice should be heard.

I believe in preserving and defending our Constitutional rights.
(such as the 1st and 2nd amendments)

I believe we can live in a secure nation without allowing ourselves to be disarmed.

And most importantly – I believe that the needs of the people come before the will of the government.

Our goals ~

Equality in Taxation

Marriage and Civil Union Reform

Government Healthcare Reform

Promoting Alternative Energy

Defending Our Constitutional Rights

Government Transparency

Corporate Accountability
